FORM AND FUNCTION

We manufacture durable and attractive laminate tables in your choice of styles—our cost-effective Standard style which is a traditional favorite; our hefty 4-Post style; the eye-catching X-Base style, the sleek Box-End and Border tables; and the Radius table. No matter the size of the laundry, these tables fit right in. And the options available for making them customized to your needs are greater than ever.

All table styles come in standard depths and lengths but can also be built to custom sizes for a wide range of configurations. They are available with or without back splash or upper shelves, and a variety of shelf supports. We can help you choose from hundreds of high-pressure laminate colors and patterns to complement any décor without compromising on quality or longevity.

All our tables are laminated top and bottom and are finished with a PVC edgebanding proven to outlast the old standards. The bolt-down legs are built from rugged tube steel to hold up to even the most demanding laundromat. There is also the option to add power units to our tables to conveniently charge devices.

Tandem Seating

MADE TO STAND THE TEST OF TIME

High Mark makes rock solid seating right here in the USA that is unsurpassed in the industry. And as with all our products, it comes with options to customize to your needs.

The durable perforated Metal Seating is built with precision and quality in mind and is the only seating of its kind made in the USA. You can choose to have it made with or without armrests and you can substitute a table where any seat would be. It also multi-tasks—with the addition of our Power Box charging unit your customers can power up their devices in comfort.

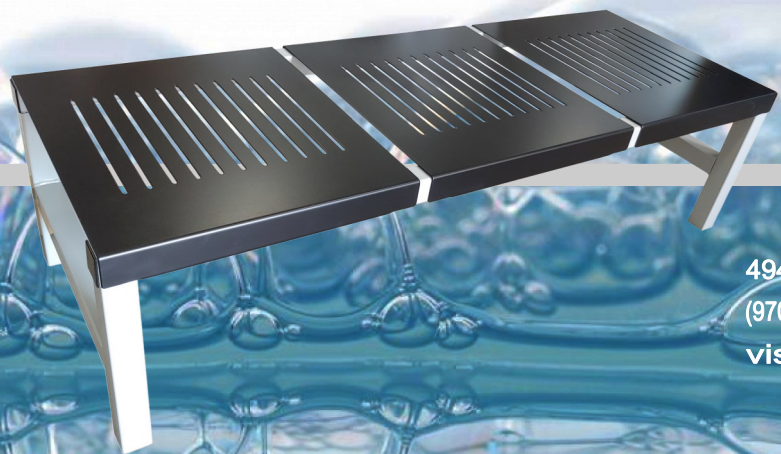

If you really want to stand out and make a statement, we can incorporate your logo into the seat back—contact High Mark for more information on designing a one-of-a-kind image to be programmed into our machines to make seats exclusively for your branded laundry.

If you are in the market for a more affordable option, our Economy Seating is your best bet. The laundry industry has been asking for seating that will hold up to all a busy laundromat has to throw at it without breaking the budget and High Mark has the answer!

Simple, stylish, and comfortable, but maybe most importantly—made to last. We put these seats through their paces and could not get one to break, chip, or come off the frame. It comes in several standard color and pattern options as well as many additional laminate choices to complement any laundry.

As if that weren't enough, the seat pans can be fastened to your existing frames. Instead of starting over with a large investment, reinvest in your current seating with a fresh, new, heavy-duty upgrade.

If you are ready to step up to seating that lasts through generations, this is for you.

Creative Seating Solutions

THE HEIGHT OF STYLE

At High Mark, we have always prided ourselves on offering what the market demands. Such is the case with our newest commercial laundry furniture options, workstation bars and tables, and combo seating.

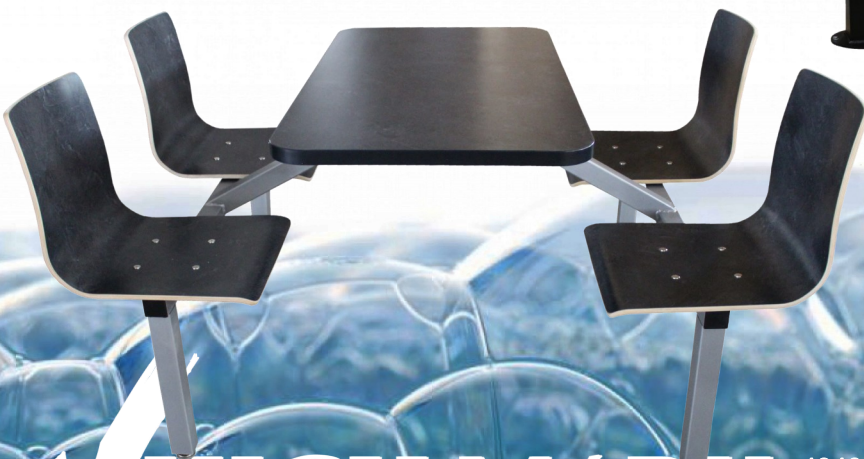

In keeping with trends and looking to the future, we now offer sturdy, stylish and functional work space seating unique to the needs of the laundry industry. We can build custom bars complete with outlets and USB ports to keep the ever-important electronics running at full capacity. Specify them in any length and depth to fit your space and add just the right number bar stools.

The bars can include a back splash, or a decorative skirt trim piece if they are in the middle of your space or against a bank of windows. The stools are fixed in place for stability and security. These customizable pieces can be pub-height, standard table height, or smaller for kid spaces.

We also offer a variety of cluster/combo units at standard table height. All this creative seating can be made with the molded seats with integrated backrests, or with a simple "button" seat for simplicity.

Double-laminated tops and seats offer years of wear. The PVC edge will hold up to all the wear your laundry can dish out. And as with all our furniture, they come ready to bolt down for security and they are made of the same heavy tube steel frames.

Whatever your need, whatever your design aesthetic, we have the right components for making your laundry comfortable and accommodating so your customers will want to keep coming back.
